

NON BAR

Coffee

A fun fact! We use coffeebeans from Single Estate (Maasdijk). They buy coffee directly from the farmer and roast it all by themselves in their own roastery to provide a unique and honest product. The fresh, whole milk we use comes from several biodynamic farms here in Central Delfland.

NON'S COFFEE

ESPRESSO - 2.75 / 3.75

AMERICANO - 2.75 / 4
Extra shot caffeine? + 0,5

FILTER BATCH BREW - 2.75

A slightly fruity filter coffee from Single Estate. The base of this coffee is the Gikirima bean from Kenya. The altitude of 1800m above sea level combined with the volcanic soil create the smooth taste.

ESPRESSO MACCHIATO - 3 / 4 F

LAT WHITE - 4

CORTADO - 3

DID YOU KNOW?

THIS IS NON!

- 30% of our hospitality and friendliness is in NON bar, and 70% of the merriment is outside the door? Like events on location, Burgersdijk and NON shop.
- We have our own event location; NON Burgersdijk! In the middle of the rural surroundings between De Lier and Maasland lies this warm & monumental farmhouse from 1834. A green environment, in a NON setting with a beautiful terrace and always exclusively for you and your guests. Do we need to say more?
- We organize events from 5 to 1000 people? Also at our own locations? Nothing is too crazy for us, and the more creative, the more fun! Let's go!
- We are the winner of the Westland Entrepreneur Award? With the highest rating for "Most distinctive in the industry." We are still incredibly proud of this.
- Our entire concept incl. various renovations was conceived, developed and designed by ourselves? Just like recipes! And we are constantly developing. Every few months something changes, so you may well see (or taste!) something new as soon as you arrive.

FUNFACT

- And that it takes 8 man-hours per NON cheesecake from start to finish before it is completely "ready to serve"?
- A few cups of coffee a day contributes to health? The maximum here is about 500 ml per day.

INGREDIENTS

- All of our milk comes from cows of 't Delflandshof from Midden-Delland? Practically our neighbors, in other words. The milk has a full and sweet taste. A perfect combination if you ask us, especially with all our coffees & cakes.
- Our coffee beans come from Single Estate, and are roasted in Maasdijk. Isn't that nice? So tasty and so close by.

PLANET

- We change our menu every season? That way we work with sustainable, fresh products, which have as small a "footprint" as possible.
- If we use disposables, that they are made entirely of sustainable materials? And therefore also fully recyclable?
- We also completely separate all of our waste wherever we go. This is something we are proud of.
- We use solar panels to be even more sustainable with our energy? By doing so, we are covering about 40% of everything we use. And we are far not finished fine-tuning this further!
